3. Responsibility will flow through the teachers, building coordinators, elementary principal (if any), junior senior high school administrator (if any), the Chief Administrative Officer to the Board of Education.
4. All staff members will be informed as to how the district administration is organized. They shall be told to whom they are responsible for each particular function and to whom they can go in case they disagree with their immediate supervisor.

Adopted: January, 2011
302.1 Ethics of Administration

The Code of Ethics for administration, which has been prepared by the American Association of School Administrators, should serve as a guide for the professional conduct of all administrators in the district.

302.30 Administrative Rules and Regulations

The Board of Education may delegate to the Chief Administrative Officer the function of formulating the administrative rules and regulations designed to carry out the policies of the Board of Education. These rules and entailed arrangements shall constitute the regulations governing the schools.

The administrative rules and regulations of the school system are intended to be consistent with board policy and provisions of the law, but do not necessarily incorporate the same. All employees are expected to know all such rules and regulations of the Board of Education as well as board policy and provisions of the law pertinent to their activities as employees of the school system.

Administrative rules and regulations are, when appropriate and possible, formulated using the administrative team concept under which the administration functions. This is to assure maximum contribution and input from all levels and areas of the school system in the drafting of such rules and regulations. Advice, recommendations, and suggestions are sought from the staff, community, and students when possible or deemed advisable.

Adopted: January, 2011

      2. Personally intrusive searches will require more compelling circumstances to be considered to be reasonable.
         a. Pat-down Search: If a pat-down search of a student’s garments (such as jackets, socks, pockets, etc.) is conducted, it will be conducted in private by a school official of the same sex as the student and with another adult witness of the same sex present, when feasible.
         b. A more intrusive search, short of a strip search, of the student’s person, handbags, book bags, etc. is permissible in emergency situations when the health and safety of students, employees, or visitors are threatened. Such a search may only be conducted in private by a school official of the same sex present unless the health or safety of students will be endangered by the delay which may be caused by following these procedures.

B. Locker inspections and searches

1. Inspections: Although school lockers are temporarily assigned to individual students, they remain the property of the school at all times. The school has a reasonable and valid interest in insuring the lockers are properly maintained. For this reason, periodic inspections of lockers is permissible to check for cleanliness and vandalism. Periodic inspections of all or a random selection of lockers may
be conducted by school officials in the presence of the student. Any contraband discovered during such searches shall be confiscated by school officials and may be turned over to law enforcement officials.

2. Searches: The student’s locker and its contents may be searched when a school official has reasonable and articulable suspicion that the locker contains illegal or contraband items. Such searches should be conducted in the presence of another adult witness when feasible.

C. Automobile Searches
1. Students are permitted to park on school premises as a matter of privilege, not a right. The school retains authority to conduct routine patrols of the student parking areas. The interior of student’s automobile on the school premises may be searched if the school official has reasonable and articulable suspicion to believe that illegal, unauthorized or contraband items are contained inside.

5. Drug Testing

A. Students and their parents also agree to comply with drug testing when requested to do so by school administration, and/or police. Request for drug tests will be made only after reasonable cause is determined by the administration. Failure to comply with a request for testing within 24 hours will result in immediate out of school suspension and a possible recommendation for expulsion, such suspension will last until notification by the testing site that testing has been done. The cost of the drug testing done at the school’s request will be borne by the Holy Trinity Catholic Schools, Inc. only if the results of that testing is negative. All results will be kept confidential, and the first positive test results will be used unless the parents notify the administration that they are seeking additional testing, from a split sample taken from the original specimen, or from more elaborate tests recommended by the family doctor. All such additional tests will be at the parent’s expense. Proof of scheduling the additional tests must be provided to the school within 48 hours of the school receiving the first test results. The student will be placed on probation during the time of the request for testing and the actual receipt of the final test results.

6. Law Enforcement

A. In instances where sale, distribution or use of drugs or alcohol is suspected on school property or at school events when students are under the direct supervision of school authorities, or responsible adults who assume the responsibility of enforcing school rules and regulations, it shall be the obligation of the school administration to immediate notify the Fort Madison or West
Point Police Department(s) and/or the Lee County Sheriff’s Department and then to assist as requested in the prosecution of the student(s) in question.

Good Conduct Code for All Students

Use of Alcohol and Other Illegal Drugs
Chemical use, abuse, and dependency is a major health problem in our society. Holy Trinity Schools believes the use and abuse of alcohol and other illicit drugs by our students must be prevented. The school is committed to work with families, parishes, law enforcement, and health organizations in the community to assist the students in controlling substance abuse when it occurs.

Use of Prohibited Substances on School Grounds or at School Functions
Any student who attends school or school functions under the influence of alcohol, marijuana, cocaine, methamphetamines, or any other illegal, illicit, or inappropriate drugs, chemicals or substances (herein collectively referred to as “Prohibited Substances”) as determined by and/or witnessed by administration or designated school official will be automatically put on in-school suspension by the administration for up to five (5) days, in addition to the penalties listed below.

Any student who is in possession of any prohibited substances at school or at school functions as determined by and/or witnessed by administration or designated school official will be automatically put on in-school suspension by the administration for up to five (5) days, in addition to the penalties listed below.

Any student who furnishes or sells prohibited substances on school grounds or at a school function as determined by and/or witnessed by administration or designated school official will be automatically put on out-of-school suspension for up to five (5) days, be brought before the Board of Education, and given penalties listed below. The administration will recommend the penalty for such a violation, which may include expulsion.

Use of Prohibited Substances Generally, NOT on School Grounds or at School Functions
Any student who is found to be using, or in possession of, prohibited substances (alcohol, marijuana, cocaine, methamphetamines, or any other illegal, illicit or inappropriate drugs, chemicals or substances) as determined and reported to the school by law enforcement personnel, parent/guardian reporting their son/daughter, or as witnessed by an administrator will be disciplined as listed below.
Students who are knowingly in the presence of underage and/or illegal consumption of prohibited substances, but such student is determined to have not personally consumed or otherwise engaged in the use of such prohibited substances, as judged by law enforcement personnel or the administration will be handled in the following manner:

Although the Holy Trinity Catholic School System applauds the lack of substance use or abuse, and we recognize that circumstances can sometimes be out of a student’s control, we do not want to encourage the habit of attending parties, functions, activities, etc. where substance use or abuse of prohibited substances is occurring. In such an instance the following will occur: First Occurrence – the administrator will meet with the student and the parent/guardian to discuss the incident and ways to avoid a similar circumstance in the future. A formal warning will be put in the student’s discipline file. Second Occurrence – the administrator will meet with the student, notify parent/guardian, the student will receive an immediate 7 day suspension from all school activities according to the guidelines below. Third Occurrence – the penalty will become what is given to a first time violator of the Good Conduct Code.

This policy does not apply when a student is in the presence of their parents, or legal guardian, at non-school functions, unless the parent/guardian requests the policy be enforced.

Consequences for Violations of Good Conduct Code

THIS POLICY IS IN EFFECT THROUGHOUT THE STUDENT’S ENROLLMENT OR RE-ENROLLMENT AT HOLY TRINITY CATHOLIC SCHOOLS, INCLUDING THE SUMMER MONTHS. (If a student has no violations of the Good Conduct Code for 3 years, any record will be wiped clean, said student will be considered to have no violations. This gives recognition to the fact that a student may learn from earlier poor decisions.)

Student Self-Reporting

Holy Trinity Catholic Schools want to reinforce the development of personal integrity and student responsibility for one’s own actions. The school system wishes to encourage this behavior by stipulating that a student who self-reports personal violation of the Good Conduct Policy to the head administrator of said building (high school principal, middle
school principal, elementary principal) before that administrator learns of the incident through other formal reporting sources, that student will receive a reduction in the length of the suspension from activity penalty of approximately one-third as determined by the administrator. The student and administration may agree to permit student participation in a 1-day activity during said suspension time. (Homecoming Court membership, Prom King/Queen selection, valedictorian/salutatorian addresses will not be allowed.)

First Violation of Student Good Conduct Code

(Penalty for violation on school grounds or at school functions)

3. The student will serve 1-day of in-school suspension.
4. The student will write a 1000 word essay on the topic of alcohol (or other substance) abuse on the teenage body. Reference material for this essay will be provided by the administration.
5. 30 hours of service work to the school, parish, or community to be completed by the end of the activity suspension.
6. The student will not be permitted to participate in or attend any Holy Trinity Catholic School activities (including, but not limited to prom, post-prom, athletic contests, dances, activities, competitions, meetings, performances, intramural activities and social events of clubs) exclusive of religious activities for a period of 30 calendar days, immediately following administrative action. This may include graduation exercises at the discretion of the administration. However, if the student is a member of a school-sponsored activity, he/she must attend the group’s public events and practices during his/her period of suspension, as a member of the group, but he/she cannot participate in the public events. In those activities that receive academic credit, at no time shall ineligibility affect the grade. (In the event of an infraction during the summer, the penalty will begin in the fall. Thanksgiving break, Christmas break, and Spring break days do not count toward the penalty days.) For students involved in summer competitions, their ineligibility period will include that sport’s season during the summer months. For students involved in competitions during any break, the ineligibility period will include that activity’s schedule during the break.

Should a student attend an event before their suspension is complete, the entire penalty will be repeated beginning when the violation of the suspension is discovered.
